Meeting Your Needs – From Start to Finish

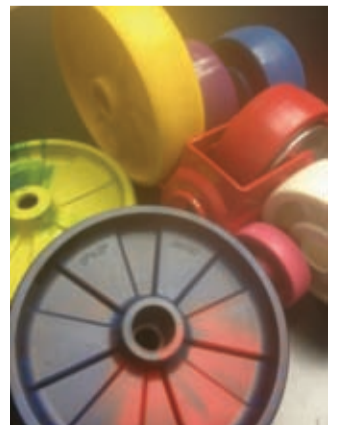

Specialty finishes allow casters to be more than just functional and to make a statement about a company or individual. Whether it's to align with branding guidelines, make a product more marketable or simply improve its aesthetics, finishes can transform a conventional caster into a key visual component. Finishes are used in retail settings, office environments furniture, custom home furnishings and many other applications. Recognizing that customers are increasingly looking for a competitive edge, Algood's manufacturing options include a wide selection of available specialty finishes including:

Black – flat and gloss • Yellow chromate • Chrome • Rust • Antique Rust
Antique Brushed Brass and Nickel • Copper • Brushed Copper

Custom finishes are also available on orders with minimum quantities. Our customer service and production teams will work with you to create the finish you are looking for.

You can also complement a specialty finish with a colour wheel chosen from our standard selection or perfectly matched to your specifications.

For more information on these and other great caster innovations from Algood, visit us our [website](#) or send us an [email](#).
